

MASON VAN WAARDENBERG

Who Am I?

My Name is Mason Van Waardenberg and I am from Roseville California. Some of my favorite hobbies include weightlifting, watching sports, and riding dirt bikes. Some of my favorite artists are Metallica and Jack Johnson and my favorite movies are Fight Club and The Batman. I also enjoy being outdoors which made the mountains in Nevada very enticing. But mainly UNR stood out to me because it is a rather large school that is somewhat close to home. I'm just starting my sophomore year, and I am glad that I chose to come here, I've made many new friends and memories and had lots

of fun.

Education

Here at reno I plan on double majoring in business marketing and management with a minor in sports management. I've always been very interested in the field and technicalities of business, and I think I have the people skills and determination to make a great businessman. My dream job must revolve around sports, preferably football. But something like being the head of marketing for a company like Redbull or a manager within an organization like the Dallas Cowboys would be a perfect mix of things I already like and a career. I hope I love my job so it feels like I never have to work a day in my life.

Technological Skills

Growing up in the 2000's I naturally became more accustomed to technology as it got more popular and advanced. I would say I'm a computer master or anything, but I am very familiar with most basic processes. I also took IS 101 my freshman year as well as a java script coding class in high school. However, as I mentioned it is not a skill I have mastered yet, so I look forward to improving my abilities in this class.
